

Meritor Parts

Meritor Parts - Meritor is a leading international supplier which is proudly built on a 100 year tradition of service and quality. They focus on various integrated systems, modules and parts to original machinery manufacturers and the aftermarket for the transportation and industrial trades.

Meritor prides itself in the company's unique energy and thinks that this energy contributes to their competitive advantage in the global operations. The business values their clients and wishes to guarantee their success while anticipating their different needs. Meritor starts with a philosophy that values diversity of individuals and their broad thought processes. Operating in 19 nations and employing over eleven thousand two hundred people, Meritor encourages innovation and collaboration amongst a team of knowledgeable professionals.

Meritor strongly believes in only hiring future focused people. These top-caliber workers could quickly adapt to changing surroundings and freely demonstrate the level of commitment and performance considered necessary to be able to obtain results for the competitive market environment. The company empowers their teams to make sound business decisions in order to enhance the overall success of the company. In return, Meritor offers all of their employees different possibilities for professional and personal development.

The Advanced Engineering team is on the forefront of systems engineering and components. This includes axles, drivelines, braking and suspension systems meant for medium and heavy duty trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is growing. They started a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives which represent the entire Asia Pacific region. This team is also responsible for supporting the requirements of their global engineering employees.

The Quality team at Meritor is a dynamic and customer-focused group which is committed to ensuring optimum development at their aftermarket distribution facilities and production plant which are located on 5 continents and in 19 nations.

The supplier development network is specifically located in order to support new business growth. Regional teams are supported by worldwide quality systems, centralized specialties and initiatives in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a fact-based, data-driven approach to decision making within each part of the trade. The DFSS or Design for Six Sigma ensures product reliability in every region. The team is also comprised of transactional Green Belts who use Six Sigma tools to business methods and implement lean techniques.
