

Concrete Hopper

Concrete Hopper - The self-dumping hopper attachment can automatically trigger to both unload and release as the bumper release touches the side of a dumpster. After unloading is completed, the hopper could return to original locked and upright position. This piece of equipment is also accessible with a cable which enables operation from the seat of the lift truck in order to have the option of manually dumping the hopper. There is a locking chain provided so as to lock the hopper to the fork truck. This particular product is made with reliable and consistent robotic welds for maximum strength. The lift truck dumping hopper likewise has a blue powder coat finish in order to maintain durability.
